

NINA F. DRONKERS, PH.D.
Curriculum Vitae – December 2023

CURRENT POSITIONS

Full Adjunct Professor
Department of Psychology
University of California, Berkeley
Email: dronkers@berkeley.edu

Full Adjunct Professor
Department of Neurology
University of California, Davis

Director Emerita, Center for Aphasia and Related Disorders
VA Northern California Health Care System

EDUCATION

University of California, Berkeley – June 1976 - A.B. - Linguistics
University of California, Berkeley – Dec. 1978 - M.A. - Educational Psychology
University of California, Berkeley – May 1985 - Ph.D. - Neuropsychology (Interdisciplinary)

Summer Education

University of Lausanne, Switzerland	1973
Linguistic Society of America Institute, Honolulu, Hawaii	1977
Linguistic Society of America Institute, Salzburg, Austria	1979

AREAS OF ACADEMIC SPECIALIZATION

Aphasia
Cerebral localization of language
Language disorders in neurodegenerative diseases
Cognitive deficits resulting from brain injury

PROFESSIONAL AWARDS AND HONORS

1979	Fellowship, Linguistics Society of America
1980 - 1984	Grants and Fellowships, University of California, Berkeley
1982	Fellowship, Max-Planck-Institut für Psycholinguistik, Nijmegen
1982, 1983	Research Grant-in-Aid, Sigma Xi, The Scientific Research Society
1983	Chancellor's Award, University of California, Berkeley
1983	Grant-in-Aid, Founder Region of Soroptimist International
1999	Finalist, UCD Academic Federation Teaching Award
1997 - 1999	Elected President, Academy of Aphasia
2006 - 2018	Research Career Scientist Awardee, Dept. of Veterans Affairs
2008	Contra Costa County "Woman of the Year" for Innovations in Science
2012 - 2015	Elected to the Governing Board, Academy of Aphasia
2014 - 2015	Elected President, Society for the Neurobiology of Language
2015 - 2017	Elected President, Academy of Aphasia
2016	Inaugural speaker for the INS Edith Kaplan Memorial Lecture Series
2023	Distinguished Career Award, Society for the Neurobiology of Language

LANGUAGE PROFICIENCY

Fluent in English and Dutch; facility in French, German, Spanish; limited Danish

PROFESSIONAL EXPERIENCE

1984 - 1987	Research Psychologist VA Medical Center, Martinez, California
1987 - 2018	Research Scientist VA Medical Center / VA Northern California Health Care System, Martinez, California
1987 - 2006	Chief, Speech Pathology Section VA Medical Center, Martinez, California
1989 - present	Assistant / Associate / Full Adjunct Professor Department of Neurology, School of Medicine, University of California, Davis
1989 - 2005	Assistant / Associate / Full Adjunct Professor Department of Linguistics, University of California, Davis
1992 - 2006	Acting Chief / Chief, Audiology and Speech Pathology Service VA Northern California Health Care System, Martinez, California
2000 - 2018	Director, Center for Aphasia and Related Disorders VA Northern California Health Care System, Martinez, California
2003 - 2012	Research Scientist, Center for Research in Language University of California, San Diego
2006 - 2018	VA Research Career Scientist VA Northern California Health Care System, Martinez, California
2011	Acting Associate Chief of Staff for Research VA Northern California Health Care System, Martinez, California
2018 - 2019	Visiting Scientist, Department of Psychology University of California, Berkeley
2020 - present	Full Adjunct Professor, Department of Psychology University of California, Berkeley

PROFESSIONAL AFFILIATIONS

1982, 1999	Visiting Scholar - Max-Planck-Institut fur Psycholinguistik, Nijmegen, The Netherlands
1990	Consultant - Lawrence Hall of Science, University of California, Berkeley
1991 - 1997	Consultant - Honolulu Heart Program, Kuakini Medical Center
1992	Consultant - Division of Neuropsychology, National Institutes of Health

1994	Summer Faculty - Cognitive Science Institute, SUNY Buffalo
1995	Summer Faculty - Cognitive Science Institute, Sofia, Bulgaria
1998	Visiting Scholar - Department of Psychology and Institute for Personality and Social Research, University of California, Berkeley
1998	Summer Faculty - McDonnell Summer Institute for Cognitive Neuroscience, Squaw Valley, California
2002	Consultant - Washington University, St. Louis
2001 - present	Consultant – Memory and Aging Center, Department of Neurology, University of California, San Francisco
2014 - 2017	Academic Supervisor – International Neurolinguistics Laboratory, Moscow Research University, Higher School of Economics

MEMBERSHIP IN SCIENTIFIC SOCIETIES

Academy of Aphasia (twice former President)
 American Academy of Neurology
 American Association for the Advancement of Science
 Cognitive Neuroscience Society
 International Neuropsychological Society
 International Association of Logopedics and Phoniatics (invited member)
 Organization for Human Brain Mapping
 Société Anatomique de Paris (invited member)
 Society for Neuroscience
 Society for the Neurobiology of Language (former President)
 World Federation of Neurology (invited member)

SERVICE TO SCIENTIFIC SOCIETIES

1992 - 1995	Chair, Membership Committee, Academy of Aphasia
1992 & 1994	Program Committee, International Neuropsychological Society
1995 - 1999	Board of Governors, Academy of Aphasia
1997 - 1999	Chair, Board of Governors, Academy of Aphasia
1999 - 2005	Administrative Advisor, Academy of Aphasia
2012 - 2020	Board of Governors, Academy of Aphasia
2013 - 2015	Board of Directors, Society for the Neurobiology of Language
2014 - 2015	President, Society for the Neurobiology of Language
2015 - 2017	Chair, Board of Governors/President, Academy of Aphasia

OTHER PROFESSIONAL ACTIVITIES

National/International Program Review Boards

1994 - 1997	National Center for Neurogenic Communication Disorders, Tucson, Arizona
2003 - 2008	National Institute of Deafness and Communication Disorders
2006	NIH Stroke Progress Review Group
2009 - 2013	VA Research Career Scientist/Promotions Evaluation Committee
2012	VA RR&D Center of Excellence Site Reviewer
2017 – present	Member, Scientific Advisory Board, Max Planck Institute for Cognitive Neuroscience, Leipzig, Germany

Ad hoc Grants Reviewer (since 1992) for:

National Institute of Deafness and Communication Disorders
 National Institute of Neurological Disorders and Stroke
 State of Calif. Health Services Dept., Alzheimer's Disease Program
 VA Career Development Awards
 VA Merit Review Board
 VA Rehabilitation Research and Development
 Wellcome Trust (United Kingdom); Medical Research Council (United Kingdom)

Ad hoc Journal Reviewer for:

Aphasiology
Brain
Brain and Language
Cerebral Cortex
Cognition
Cortex
Journal of Cognitive Neuroscience
Journal of Neurolinguistics
Journal of Neurology
Journal of Neuroscience
Nature
Nature Neuroscience
Neurocase
Neuroimage
Neurological Sciences
Neuropsychiatry, Neuropsychology, and Behavioral Neurology
Neuropsychologia
Proceedings of the National Academy of Sciences
Science
Trends in Cognitive Sciences

Service on Local VA Research Committees

1988 - 1997	Scientific Review Committee - VAMC Martinez Research Service
1997 - 2003	Research and Development Committee
1999, 2014	Search Committee - Associate Chief of Staff for Research
1999 - 2003	Board of Directors, East Bay Institute for Research and Education
2001 - present	Magnetic Resonance Imaging Research Committee
2002	Research Service Reorganization Committee
2005 - 2006	Search Committee - Associate Chief of Staff for Research
2009 - 2013	Research Space Committee
2011 - 2012	Chair/Member, Search Committee - Associate Chief of Staff for Research
2011 - 2012	Chair/Member, Steering Committee for Research Service
2011	Leader, ReSTORE Team for Research Service
2011	Team Leader, Process Action Team for Research Administration
2012	Member, Search Committee – Research Administrative Assistant
2014	Search Committee - Associate Chief of Staff for Research
2014 - 2018	Investigator Liaison for new neuroscience research building
2015 - 2018	Research and Development Committee

Service on other VANCHCS Administrative Committees

1995 - 2006	Joint Executive Board/Leadership Forum
1997 - 1999	Strategic Planning Committee
1997 - 2002	Information Management Committee
1998 - 2000	Reorganization Task Force
2003 - 2009	Planning Committee for new Center for Neurorehabilitation Services
2006 - 2008	Search Committee – Chief, Audiology and Speech Pathology

Service on University of California, Davis Committees

1999 - 2008	School of Medicine promotion committees
2003	Dept. of Linguistics/Center for Mind and Brain Search Committee
2014	Dept. of Neurology, Faculty Mentoring Committee

Service at University of California, Berkeley

2020 - present	Co-organizer of Cognitive Neuroscience Colloquium
2021 - present	Head/Co-Head of Psychology Dept., Cognitive Neuroscience Area

COMMUNITY SERVICE

1973 - 1991	Co-Founder and Board of Directors of Creative Dimensions, Inc.
1993 - 2008	Fund-raiser for public school programs
1996 - present	Visiting Science Instructor for local schools
2006 - 2013	American Heart Association volunteer
ongoing	Lecturer at local community events

LARGER RESEARCH GRANTS AS PRINCIPAL INVESTIGATOR (Direct Costs)

1987 - 1990	\$174,000, "Structure and Facilitation of Naming Abilities in Aphasia", Veterans Administration Department of Medicine and Surgery, no Co-Investigators
1991 - 1994	\$160,000, "Lexical-Semantic Aspects of Naming Abilities in Aphasia", Veterans Administration, Department of Medicine and Surgery, no Co-Investigators
1994 - 1999	\$350,000, "Semantic Access in the Right Cerebral Hemisphere", National Institute on Neurological Disorders and Stroke, with Kathleen Baynes, Ph.D. as Co-Principal Investigator
1999 - 2002	\$230,000, "Contributing Factors to Post-Stroke Depression in Aphasia", Department of Veterans Affairs Medical Research, with Kathleen Baynes, Ph.D. and Rita Hargrave, M.D. as Co-Investigators
2002 - 2008	\$974,000, "Cognitive Disorders in Stroke: Project 3 - Language", National Institute on Neurological Disorders and Stroke, with Kathleen Baynes, Ph.D. and Diane Swick, Ph.D. as Co-Investigators
2004 - 2008	\$3,070,000, "Cross Linguistic Studies of Aphasia", National Institute on Deafness and Communication Disorders, originally awarded to Elizabeth Bates, Ph.D. in 2001.

2005 - 2009	\$506,000, "Executive Functioning in Stroke Patients with Aphasia", Department of Veterans Affairs Medical Research, with Juliana Baldo, Ph.D. as Co-Investigator
2010 - 2015	\$619,000, "Language Disorders Due to Fiber Tract Disconnection in Aphasic Patients", Department of Veterans Affairs Medical Research, with And Turken, Ph.D., Robert Knight, M.D. and Juliana Baldo, Ph.D. as Co-Investigators
2016 - 2018	\$644,000, "Neural Predictors of Recovery from Auditory Comprehension Deficits in Aphasia", Department of Veterans Affairs Medical Research, with And Turken, Ph.D., Robert Knight, M.D. and Juliana Baldo, Ph.D. as Co-Investigators
2017 - 2022	\$1,610,000, "Neural Mechanisms and Recovery of Language Production Deficits in Aphasia", National Institute on Deafness and Communication Disorders, with Maria Ivanova, Ph.D. and Juliana Baldo, Ph.D. as Co-Investigators.
2019 - 2020	\$250,000, "Neural Mechanisms of Language Production Decline in Primary Progressive Aphasia", National Institute on Deafness and Communication Disorders, Supplement to above grant, with Maria Ivanova, Ph.D. and Maria Luisa Gorno-Tempini, M.D., Ph.D. as Co-Investigators.
2023 - 2025	\$275,000, "Neural Mechanisms of Song vs Speech Production: Insights from Aphasia and Intracranial Recording", National Institute on Deafness and Communication Disorders, with Maria Ivanova, Ph.D. and Robert Knight, M.D. as Co-Investigators.

RESEARCH CAREER SCIENTIST AWARD

2006 - 2018	Full-time salary and benefits to conduct VA-relevant research full-time, mentor and train students and fellows, collaborate with other investigators, and participate in research administration at the local and national levels. This award is funded by the Department of Veterans Affairs, Office of Research and Development, Clinical Sciences R&D Program and is only given to the VA's top scientists.
-------------	--

SMALLER RESEARCH GRANTS AS PRINCIPAL INVESTIGATOR

1987	\$3,000, "Differential Diagnosis of Neurogenic Communicative Disorders: A Pilot Study", Veterans Administration Health Services Research and Development
1989	\$3,000, "Assessment of Linguistic Dysfunction in Alzheimer's Disease", Veterans Administration Health Services Research and Development
1992 - 1993	\$20,000, "Linguistic Analysis and Cerebral Localization of Language Deficits", National Science Foundation (Co-Principal Investigator with Robert Van Valin, Ph.D., David Wilkins, Ph.D. and Jeri Jaeger, Ph.D.)

1992 - 1993	\$5,000, "Cerebral Localization of Speech and Language Deficits in Bilinguals", UC Davis Dean's Research Award
1993 - 1994	\$20,000, "Lexical-Semantic Aspects of Linguistic Dysfunction in Alzheimer's Disease", UC Davis Alzheimer's Disease Center
2000	\$14,000, "A Pilot Study of Intensive Speech Treatment in a Group of Brain-Injured Aphasic Patients", Wells Fargo Foundation

RESEARCH GRANTS FUNDED AS CO-INVESTIGATOR

1988 - 1992	\$559,700, "Rehabilitation of Neurogenic Communicative Disorders in Remote Settings: Field Trial", Veterans Administration Health Services Research and Development (PI = Robert T. Wertz. Ph.D.)
1990	\$7,500, "Effects of Site and Size of Brain Damage on Severity and Prognosis in Aphasia", Veterans Administration Health Services Research and Development (PI = Robert T. Wertz. Ph.D.)
1992	\$8,000, "Effects of Site of Brain Damage on Severity and Prognosis in Aphasia", Veterans Administration Health Services Research and Development (PI = Robert T. Wertz. Ph.D.)
1997 - 1999	\$60,000, "The Use of Multiple Mental Representations in Rehabilitation", McDonnell Foundation (Co-Principal Investigator with Kathleen Baynes, Ph.D. and Lynn Robertson, Ph.D.)
2004 - 2008	\$1,000,000, "Progressive Aphasia: Cognition, Anatomy, and Progression", National Institute on Neurological Disorders and Stroke (PI = Maria Luisa Gorno-Tempini, M.D., Ph.D.)
2004 - 2009	\$763,000, "Attentional Disorders in Patients with Brain Injury", Department of Veterans Affairs Medical Research (PI = Lynn Robertson, Ph.D.)
2009 - 2012	\$620,000, "Executive Functioning in OEF/OIF Veterans with Traumatic Brain Injury", Department of Veterans Affairs Medical Research (PI = Juliana Baldo, Ph.D.)
2012 - 2016	\$1,135,000, "White Matter Pathway Disconnection And Cognitive Control Impairments In Stroke", Department of Veterans Affairs Medical Research (PI = And Turken, Ph.D.)
2014 - 2018	\$973,000, "Brain Biomarkers of Response to Treatment for Apraxia of Speech", Department of Veterans Affairs Medical Research (PI = Juliana Baldo, Ph.D.)
2019 - 2013	\$1,046,453, "Impact of Left Hemisphere Stroke on Cognitive Functioning and Implications for Driving", Department of Veterans Affairs Medical Research (Co-PIs = Juliana Baldo, Ph.D. and Krista Schendel Parker, Ph.D.)

- 2021 – 2022 \$98,000, “Auditory Verbal Short-Term Memory Deficits in Dyslexia”, Schwab Center for Dyslexia and Cognitive Diversity Innovation Fund (PI = Sladjana Lukic, Ph.D.)
- 2023 - 2024 \$425,000, “Exercising Language: Behavioral And Neurophysiological Changes After High-Intensity Exercise Training In Post-Stroke Aphasia”, National Institute on Deafness and Communication Disorders (PI = Maria Ivanova, Ph.D.)

RESEARCH GRANTS FUNDED AS CONSULTANT

- 2008 - 2012 \$1,250,000, “Progressive Aphasia: Cognition, Anatomy, and Progression”, National Institute on Neurological Disorders and Stroke (PI = Maria Luisa Gorno-Tempini, M.D., Ph.D.)
- 2008 - 2013 \$5,000,000, “Center for the Study of the Neural Bases of Language and Learning”, National Institute on Neurological Disorders and Stroke (PI = Doris Trauner, M.D.)
- 2012 - 2017 \$1,500,000, “Progressive Aphasia: Cognition, Anatomy, and Progression”, National Institute on Neurological Disorders and Stroke (PI = Maria Luisa Gorno-Tempini, M.D., Ph.D.)
- 2017 - 2022 \$1,500,000, “Progressive Aphasia: Cognition, Anatomy, and Progression”, National Institute on Neurological Disorders and Stroke (PI = Maria Luisa Gorno-Tempini, M.D., Ph.D.)
- 2022 – 2027 “The Role of Bilingualism in Cognitive and Brain Resilience: Addressing the Complexity”, National Institute on Aging (PI = Jessica Deleon, M.D.)

MENTORING

Post-Graduate Fellows

Analia Arevalo, Ph.D.
 Juliana Baldo, Ph.D.
 Sasha Best, Ph.D.
 Nicoletta Biondo, Ph.D.
 Jary Larsen, Ph.D.
 Lindall McIntire, M.S.
 Jenny Ogar, M.S.
 Vitoria Piai, Ph.D.
 Patty Phaneuf, M.S.
 Stephanie Ries, Ph.D.
 Ruth Salo, Ph.D.
 Krista Schendel, Ph.D.
 Ana Soper, Ph.D.
 Kate Taylor, M.S.
 And Turken, Ph.D.
 Alana Vernon, Ph.D.

Mentoring Institution

University of California, San Diego
 University of California, Berkeley
 VANCHCS Neuropsychology Postdoctoral Fellow
 Marie Curie Fellow, UC Berkeley (current)
 California School of Professional Psychology
 California State University, Hayward
 California State University, San Francisco
 University of California, Berkeley
 California State University, East Bay
 University of California, Berkeley
 University of California, Davis
 University of California, Davis
 VANCHCS Neuropsychology Postdoctoral Fellow
 Ohio State University
 University of California, Santa Barbara
 VANCHCS Neuropsychology Postdoctoral Fellow

VA/NIH Career Development Award Mentor/Co-mentor/Consultant

Juliana Baldo, Ph.D.	NIH NRSA post-doctoral fellowship mentor
Edward Chang, M.D.	NIH K99/R00 co-mentor
Jessica De Leon, M.D.	NIH K23 co-mentor (current)
Adeen Flinker	NIH NRSA pre-doctoral fellowship co-mentor
Brian Pasley, Ph.D.	NIH K99/R00 collaborator
Stephanie Ries, Ph.D.	NIH NRSA post-doctoral fellowship co-mentor
Stephen Wilson, Ph.D.	NIH R03 co-mentor
And Turken, Ph.D.	VA Career Development Award co-mentor
Anna Jafarpour	NIH K99/R00 consultant (current)

Fulbright Scholars Sponsored

Ching Ching Lu, Ph.D.	National Hsinchu University of Education, Taiwan
Olga Dragoy Ph.D.	Moscow Research University, Moscow, Russia

Student Committees**Ph.D. Dissertation Co-Chair and Committee Member**

Analia Arevalo	University of California, San Diego
Suzanne Gahl	University of California, Berkeley
Magaly Lagunas-Carvacho	University of California, Davis
Suzanne Moineau	University of California, San Diego
Alexis Pracar	University of California, Berkeley (current)
Johnna Shapiro	University of California, Davis

Ph.D. Dissertation Committee Member

Arielle Borovsky	University of California, San Diego
Marilyn Heine	University of California, Davis
Amanda LeBel	University of California, Berkeley
Amy Lincoln	University of California, Davis
Sheri Scarborough	California School of Professional Psychology
Suzanne Shdo	University of California, Berkeley
Wei-chun Wang	University of California, Davis
Sara Popham	University of California, Berkeley

Ph.D. Oral Examination Committee

Suzanne Gahl	University of California, Berkeley
Amanda LeBel	University of California, Berkeley
Lori Miyasato	University of California, Davis
Lillian Park	University of California, Berkeley
Sarah Partan	University of California, Davis
Sara Popham	University of California, Berkeley
Iliana Reyes	University of California, Berkeley
Johnna Shapiro	University of California, Davis
Suzanne Shdo	University of California, Berkeley
Wei-chun Wang	University of California, Davis

Ph.D. Students Mentored

Claudia Cramer	King's College, London (current)
Michael deRiesthal	Vanderbilt University
Adeen Flinker	University of California, Berkeley
Selvi Paulraj	Palo Alto University
Orly Rubenstein	Ben Gurion University, Israel

Melissa Prather	University of California, Davis
Ayse Pinar Saygin	University of California, San Diego
Christine Wu	University of California, Davis

Master's Thesis Sponsor and Committee Member

Courtney Jacks	University of California, Davis
Siew-Peen Chong	University of California, Davis
Paula Lee	University of California, Davis
Brenda Redfern	University of California, Davis

Master's Student Interns Mentored

Francis Balcomb	California State University, Hayward
Francesca Beghin	University of Padoa, Italy
Carl Ludy	University of California, Davis
Michele Miller	California State University, East Bay
Yumi Yamasaki	University of California, Davis

Postbaccalaureate Students Mentored

Cong Du	University of California, Berkeley (current)
Sandhya Kannan	University of California, Berkeley
Jessica Lawien	University of California, Berkeley

Postgraduate Interns Mentored

Rita Barakat	University of California, Berkeley
Jenny Dorman	University of California, Berkeley
Jenny Hume	University of California, Davis
Darren Husted	University of California, Davis
Jessica Lawien	University of California, Berkeley
Sandhya Kannan	University of California, Berkeley
Fedor Petrenko	University of California, Berkeley
Alexis Pracar	George Washington University, Washington, D.C.
Andrea Zvinakis	University of California, Berkeley
Allison Zhong	University of California, Berkeley

Honor's Thesis Sponsor and Committee Member

Vanessa Anderson	University of California, Berkeley
Adam Greene	University of California, Davis
Jelena Jovanovic	University of California, Berkeley
Melissa Snow	University of California, Berkeley

Undergraduate Student Interns Mentored

Vanessa Anderson	University of California, Berkeley
Eric Byrd	California State University, Sacramento
Giana Cirolia	University of California, Berkeley
Rebecca De Carlo	University of California, Berkeley
Arturo Hernandez	University of California, Berkeley
Jennifer Harvey	Hiram University, Ohio
Benjamin Russell	California State University, San Francisco
Angelica Vance	University of California, Berkeley

TEACHING**University Courses Taught**

- 1987 - 2002 The Biological Basis of Language, Dept. of Linguistics, University of California, Davis (average rating = 4.9 out of 5.0; outstanding)
- 1987 - 2002 Independent Study, Dept. of Linguistics, University of California, Davis
- 2019 - 2020 Specialty Clinic, Dept. of Psychology, University of California, Berkeley (co-taught with Robert Levenson, Ph.D.)

Other Teaching Experience

- 1969 - 1986 *Instructor* of music, Berkeley and Oakland, California
- 1975 - 1977 *Instructor* and tutor in English as a Second Language for UC Berkeley and UC Extension

TITLES OF THESES

Master's Thesis - *Brain and the Bilingual*

Doctoral Dissertation - *Neuropsychological Processes of Automatic Speech in Aphasia*

75. Mapping language areas in the brain. University of California, Berkeley, September, 2005.
76. Mapping language areas in the brain. University of California, Berkeley, September, 2006.
77. Brain areas associated with speech and language disorders. University of California, Berkeley, May, 2007.
78. Mapping language areas in the brain. University of California, Berkeley, September, 2007.
79. Aphasia. University of California, San Diego, November, 2007.
80. Broca's area, Broca's aphasia, and Broca's brains. Neurology Department Grand Rounds, University of Maryland, Baltimore, April 2008.
81. Mapping language areas in the brain. University of California, Berkeley, September, 2008.
82. The anatomy of language areas in the brain. University of California, Davis, October, 2008
83. Scanning the brains of Paul Broca's first patients. Neurology Grand Rounds, University of California, Davis, October, 2008
84. Aphasia. University of California, Berkeley, October, 2008
85. The neuroscience of language, University of California, Davis, November, 2008
86. Bilingual Aphasia. Boston University, October, 2009.

87. Brain areas associated with speech and language disorders. Dept. of Neurosurgery Grand Rounds, University of California, San Francisco, October, 2009.
88. Speech and language disorders after injury to the brain. Doctor's Hospital, San Pablo, June, 2010.
89. Mapping language areas in the brain. University of California, Berkeley, October, 2010.
90. The neuroanatomy of language. University of California, Berkeley, September, 2011.
91. Neural correlates of auditory comprehension deficits in stroke patients with aphasia. National Center for Rehabilitative Auditory Research, Portland, Oregon, October, 2011.
92. Effects of stroke on speech and language in veterans. Research Day, VA Northern California Health Care System, April, 2012.
93. Neuroanatomical correlates of auditory comprehension deficits in stroke patients with aphasia. National Institute for Deafness and Communication Disorders, Bethesda, Maryland, June 2012.
94. Neuroanatomical correlates of auditory comprehension deficits in stroke patients with aphasia. Max Planck Institute for Human Cognitive and Brain Sciences, Leipzig, Germany, May, 2012.
95. Lesion and connectivity analysis of a network supporting language comprehension. Memory and Aging Center Grand Rounds, University of California, San Francisco, August, 2012.
96. Lesion and connectivity analysis of a network supporting language comprehension. Dept. of Neurology Grand Rounds, University of California, Los Angeles, September, 2012.
97. The neuroanatomy of language. University of California, Berkeley, September, 2012.
98. The role of the insula in speech production. Special debate at the Neurobiology of Language Conference, San Sebastian, Spain, October, 2012.
99. Effects of stroke on speech and language in veterans. Home-based Primary Care Program, VA Northern California Health Care System, November, 2012.
100. Structural and functional connectivity of the brain regions supporting auditory sentence comprehension. Plenary lecture for the Japan Society for Higher Brain Dysfunction, Utsunomiya, Japan, November, 2012.
101. Speech and language deficits after injury to the adult brain. UCSF Osher Mini Medical School for the Public, University of California, San Francisco, December, 2012.

102. What do we know about the neural substrates of recovery? McDonnell Planning Grant meeting, St. Louis, April, 2013.
103. The neural architecture of auditory comprehension. Keynote address for the British Aphasiology Society, Manchester, England, September, 2013.
104. Lesion and connectivity analysis of a network supporting language comprehension. Clinical Neuroanatomy Seminar, Gordon Museum, London, England, September, 2013.
105. Lesion and connectivity analysis of a network supporting language comprehension. Macquarie University, Sydney, Australia, November, 2013.
106. Effects of stroke on speech and language in veterans. Research Day, VA Northern California Health Care System, May, 2014.
107. Language and the brain: Learning from aphasia. Keynote lecture in honor of the retirement of Beverly Wulfeck, San Diego State University, May, 2014.
108. Aphasia. Center for Speech Pathology, Moscow, Russian Federation, June, 2014.
109. Visualizing the brain's fiber pathways. International Neurolinguistics Laboratory, Moscow Research University, Higher School of Economics, Moscow, Russian Federation, June, 2014.
110. What has the study of aphasia taught us about language and the brain? Cold Springs Harbor Laboratory: Genetics & the Neurobiology of Language, July, 2014.
111. The neuroanatomy of language. University of California, Berkeley, October, 2014.
112. Language and the brain: Learning from aphasia. Kosmos Club, University of California, Berkeley, December, 2014.
113. Language disorders and the neurobiology of language. Keynote lecture, Molecular, Cellular, Integrative Physiology annual retreat. University of California, Los Angeles, February 2015.
114. Brain substrates for language. International Neurolinguistics Laboratory, Moscow Research University, Higher School of Economics, Moscow, Russian Federation, August, 2015.
115. Neuroimaging of language pathologies. International Neurolinguistics Laboratory, Moscow Research University, Higher School of Economics, Moscow, Russian Federation, August, 2015.
116. Language and the brain: learning from aphasia. Boston University, Boston, October, 2015.
117. The neuroanatomy of language. University of California, Berkeley, October, 2015.

118. Learning from aphasia: from old theories to new ideas. University of Arizona, Tucson, November, 2015.
119. Lesion and connectivity analysis of a network supporting language comprehension. University of Arizona, Tucson, November, 2015.
120. Aphasia: Language disorders and localization. FENS Winter School, Obergurgl, Austria, January, 2016.
121. Language Dysfunction. First International Brain Mapping Course, American Association of Neurological Surgeons, Chicago, April, 2016.
122. Using neuroimaging to assess brain-language relationships. International Neurolinguistics Laboratory Summer School, Moscow Research University, Higher School of Economics, Moscow, Russian Federation, July, 2016.
123. Using neuroimaging to assist in diagnosis and treatment. International Neurolinguistics Laboratory Summer School, Moscow Research University, Higher School of Economics, Moscow, Russian Federation, July, 2016.
124. Lexical semantics and the middle temporal gyrus. Language in Interaction Summer School, Nijmegen, The Netherlands, July, 2016.
125. Brain mechanisms of speech and language production. International Workshop on Language Production, La Jolla, California, July 2016.
126. Language and the brain: from past studies to future aspirations. The 1st Annual Edith Kaplan Memorial Lecture: International Neuropsychological Society, New Orleans, Louisiana, February, 2017.
127. What do language disorders reveal about the brain? From classic models to network approaches. Grand Lecture, Brain and Spine Institute, Paris, France, June 2017.
128. The neuroanatomy of language. University of California, Berkeley, October, 2017.
129. Using voxel-based lesion symptom mapping (VLSM) in the search for the brain substrates for language. Thirty-sixth European Workshop on Cognitive Neuropsychology: special symposium, Bressanone, Italy, January, 2018.
130. What do language disorders reveal about the brain? From classic models to network approaches. IDEA lab lecture, Bressanone, Italy, January, 2018.
131. Is lesion analysis still relevant for cognitive neuroscience? Cognitive Neuroscience Society special symposium, Boston, March, 2018.
132. What do language disorders reveal about the brain? From classic models to network approaches. Woolfolk Distinguished Lecture Series, University of Texas, Austin, March, 2018.
133. Language Dysfunction. Second International Brain Mapping Course, American Association of Neurological Surgeons, New Orleans, April 2018.

134. Neurobiology of language: Past, present and future. Past Presidents Panel, Society for the Neurobiology of Language, August 2018.
135. The neuroanatomy of language. University of California, Berkeley, September, 2018.
136. What do language disorders reveal about the brain? From classic models to network approaches. Annual M.D. Steer Lecture, Purdue University, October, 2018.
137. What do language disorders reveal about the brain? From classic models to network approaches. Distinguished Speaker Colloquium, San Francisco State University, February, 2019.
138. What do language disorders reveal about the brain? From classic models to network approaches. Cognitive Neuroscience Seminar, University of California, Berkeley, February, 2019.
139. What do language disorders reveal about the brain? From classic models to network approaches. Georgetown University, February, 2019.
140. Imaging the fibers of the brain. University of California, Berkeley: Learning in Retirement (remotely), March 2021.
141. Scanning Broca's patients' brains: What have we learned? Fifth Annual Course on Brain Mapping, London, England (remotely), March, 2021.
142. Discussion: Impact of models of speech production on understanding aphasia. Neural Bases of Speech Production Workshop (remotely), May 2021.
143. Function of Broca's and insular regions. Masters of Neurosurgery Annual World Course in Brain & Spine Tumour Surgery, London, England (remotely), August, 2021.

(discontinued recording after 2021)

B.3. Invited Workshops and Short Courses

1. Dronkers, N.F. & Zaidel E. Hemispheric mechanisms of language and cognition (three-week course). Cognitive Science Institute, SUNY, Buffalo, July 1994.
2. Language and the brain (short course). Cognitive Science Institute, Sofia, Bulgaria, July 1995.
3. Anatomy of adult aphasia. Annual Cimarron Conference on Communication Disorders, Stillwater, Oklahoma, February 1995.
4. Neuropsychological assessment of aphasia. International Neuropsychological Society, Chicago, Illinois, February 1996.
5. Anatomy and characteristics of aphasia. California Speech and Hearing Association, Monterey, California, March 1996.

6. Anatomy and characteristics of aphasia. Tennessee Speech and Hearing Association, Nashville, Tennessee, March 1996.
7. Anatomy and characteristics of adult aphasia. Tahoe Time, South Lake Tahoe, California, August 1996.
8. Broca's aphasia and the lesions that cause it. American Speech-Language-Hearing Association, San Francisco, California, November, 1999.
9. Monthly lectures on aphasia and progressive aphasia. University of California, San Francisco, 2002 to 2010.
10. Lecturer, Summer Program in Neurolinguistics, Moscow Research University, Higher School of Economics, Moscow, Russian Federation, September, 2014, August 2015, June 2017.
11. Adult Aphasia: Classifications, Localization, and Neuroimaging. International Neuropsychological Society, New Orleans, Louisiana, February, 2017.

B.4. Televised/Video Presentations/ Presentations to the Media

1. "Language and the brain". Ongoing exhibit at the Lawrence Hall of Science, University of California, Berkeley, 1990 to present.
2. "Cerebral localization of production deficits in aphasia". Nationally-televised "Telerounds" production, National Center for Neurogenic Communication Disorders, University of Arizona, March 1993.
3. Segment on language in "Brain Story: Program 4 - First Among Equals", BBC Production, 2000.
4. Segment on *Nature* podcast, regarding imaging the brains of Paul Broca's original patients, April 2007.
5. Connections supporting language comprehension. Presentation at press conference, Society for Neuroscience, November, 2010.
6. Segments on NBC and ABC regarding Bruce Willis' diagnosis of aphasia, 2022.

B.5. Conference Presentations

(over 200 conference presentations)
